

Schedule – PTS 34b – Fresh Waters

Basic physico chemical analyses

The time for analysis is around 3 weeks.
Depending on the nature of the sample, the volume is between 100mL and 1000mL.

MONTH	MATRIX	Sample Code	Next shipment
October	Surface water	0134, 0234, 0334	2016/10/04
December	Mineral water	3934	2016/11/29
February	Surface water	0134, 0234, 0334	2017/01/24
April	Feed water Surface water	1734 0134, 0334	2017/04/11

Sample Code

0134	COD, TOC, DOC, Kjeldahl and total nitrogen, Total phosphorus, Oxydability with KMnO4.
0234,1734	Dissolved silica, Calcium, Magnesium, Sodium, Potassium, pH, conductivity, CAT, Chlorides, Sulfates, Nitrates, Fluorides, Bromides, Perchlorates, Hardness, Turbidity, Color, BOD (0234), Ammonium, Nitrites, Orthophosphates, Dissolved salts
0334	Suspended solid
3934	Dissolved silica, Calcium, Magnesium, Sodium, Potassium, pH, conductivity, CAT, Bromides, Chlorides, Sulfates, Nitrates, Fluorides, Hardness, Turbidity, Color, Ammonium, Nitrites, Orthophosphates

The calendar might change for technical or scientific reasons. Please refer to your member area on www.bipea.org to check the deadline.
